

Secure Code Review Checklist

Department: ENGINEERING

Category: Checklist

Source: Synthetic Enterprise Knowledge Base

Audience: Internal staff with approved department access

Purpose

This document provides department-specific guidance for ENGINEERING staff and approved collaborators.

Key Requirements

- Check authentication, authorization, input validation, and secret handling.
- Review logging for sensitive data exposure.
- Confirm dependency changes are necessary and maintained.
- Security findings must include impact, evidence, and recommended fix.

Review And Ownership

The ENGINEERING document owner reviews this content every 90 days or after a material process change.

Outdated versions should be archived before the replacement version is indexed.

RAG Test Notes

Queries about 'secure code review checklist' should cite this source when the user has access to ENGINEERING.

If a user from another department lacks permission, the system should not use this content in the answer.
