

Emergency Laptop Replacement Runbook 2026

Synthetic demonstration document - IT Operations

Document control

- Runbook ID: IT-ELR-17
- Owner: IT Service Desk
- Effective date: 1 August 2026

When to use

- Use only when a company laptop failure prevents all assigned work.
- Create a Service Desk ticket under Hardware > Emergency Replacement.
- Set priority P1 only when no approved alternative device is available.

Service target

- Requests approved before 2:00 PM MYT receive a loan unit within 4 business hours.
- Requests approved after 2:00 PM MYT receive a loan unit by 12:00 PM the next business day.

Required checks

- Confirm user identity and manager approval.
- Record asset tag, BitLocker recovery status, fault symptoms, and last successful backup time.
- Do not factory-reset the faulty laptop before IT completes evidence collection.

Return and escalation

- Return the faulty laptop to IT within 3 business days after receiving the loan unit.
- If the 4-hour target is at risk, escalate ticket IT-ELR-17 to the IT Duty Manager.
