

Software Request Standard

Department: IT

Category: Standard

Source: Synthetic Enterprise Knowledge Base

Audience: Internal staff with approved department access

Purpose

This document provides department-specific guidance for IT staff and approved collaborators.

Key Requirements

- Unlicensed software is not allowed on company devices.
- Open-source packages for production work require security review when rated high risk.
- Admin rights are temporary and must be approved for a named task.
- Software exceptions are reviewed monthly.

Review And Ownership

The IT document owner reviews this content every 90 days or after a material process change.

Outdated versions should be archived before the replacement version is indexed.

RAG Test Notes

Queries about 'software request standard' should cite this source when the user has access to IT.

If a user from another department lacks permission, the system should not use this content in the answer.
