

## Key Management Notes

Department: SECURITY

Category: Notes

Source: Synthetic Enterprise Knowledge Base

Audience: Internal staff with approved department access

### Purpose

This document provides department-specific guidance for SECURITY staff and approved collaborators.

### Key Requirements

- Production secrets must be stored in approved secret-management systems.
- API keys must not appear in screenshots, logs, or demo recordings.
- Key rotation is required after suspected exposure.
- Demo keys should use minimum required permissions.

### Review And Ownership

The SECURITY document owner reviews this content every 90 days or after a material process change.

Outdated versions should be archived before the replacement version is indexed.

### RAG Test Notes

Queries about 'key management notes' should cite this source when the user has access to SECURITY.

If a user from another department lacks permission, the system should not use this content in the answer.
